I want to cancel my registration effective from 1 January

or another future date

(dd/mm/yyyy)

I want to cancel the following registrations

Chartered Professional Engineer (CPEng)

International Professional Engineer (IntPE) or International Engineering Technologist (IntET)

THINGS YOU SHOULD KNOW

Changes to my membership

I understand that if I have cancelled my membership:

- I can no longer use the Official Member symbol or relevant post nominal, eg CEngNZ.
- I can re-join at any time by reapplying for membership.

I understand that if I've applied for a discount on my Engineering New Zealand membership fee and my circumstances change, I need to let Engineering New Zealand know. If I've applied for a career break discount, I understand that this is applied to this year's fee only.

I understand that if I have requested the Retired fee and I'm no longer performing CPD, that I will add (Ret.) to my Post Nominal (e.g CEngNZ (Ret.)).

Changes to my registration

I understand that if I've resigned or placed my registration on hold:

- I can no longer use the relevant post nominal, eg CPEng.
- I can no longer use my registration status for regulatory sign-off.
- I can reinstate my registration by paying any registration fees due and completing reassessment if required.

I understand that if I've placed my CPEng registration on hold, I'm still liable to pay an annual fee of NZD \$317.90 (excl. GST) each year – this covers the cost of my next reassessment.

DECLARATION

I understand and agree to the above.

I confirm all information in this form is true and accurate.
